------------------------------	--

Cremated Remains cannot be scattered on graves as specific areas are provided within each burial ground. It is recommended that you purchase a scatter tube from your funeral director or crematorium as this helps with the scattering process. We will also require the Certificate of Cremation.

Memorial Plaques and Trees can be purchased. These will be placed in the memorial section of the burial ground. Whilst this may not be close to the scattering site it is worth remembering that cremated remains will scatter in the winds and that the natural beauty of the burial ground is a forever tribute to all who rest there.
