

The Natural Burial Company – Coffins, Caskets and Shrouds

We believe in providing the most environmentally friendly coffins and caskets as possible and ensuring that we are transparent regarding our offer. Accordingly, we believe that we should be providing everyone with as much information as we can regarding the options available to allow a full, informed choice.

No plastics or metals are used in the construction of our coffins and caskets. All coffins and caskets have load bearing handles and are weight tested to carry a minimum of 23 stone.

Manila Cardboard Coffin

The Cardboard Coffin is made in the UK using at least 70% recycled paper and wood pulp sourced from reputable sustainable forests. These coffins are supplied with natural rope handles. The cardboard coffins are 100% biodegradable. The Cardboard Coffin can be decorated by family and friends.

Bamboo Eco2 Coffin (Traditional or Round Shape)

The Bamboo coffin is made by using traditional methods in China. Bamboo is the fastest growing plant on the planet and absorbs more CO2 for its weight than any other plant. Whilst the Bamboo Coffins, and some others in our range, are produced in China, they are transported in such a manner to ensure that transporting one coffin to the UK uses no more fuel than a 5-mile car journey.

English Willow Eco2 Coffin (Traditional or Round Shape)

Handmade in England using Somerset Willow. Traditional methods are used by skilled crafters from long-standing willow weaving families.

The Earthcare Coffin

The Earthcare coffin is made in the UK using recycled paper, and branch and bark timber from FSC forests in Canada and sustainable pulp from PEFC forests in Germany. The result is a coffin with an excellent finish which uses up to 80% fewer trees than traditional Veneer coffins made from chipboard or MDF.

Woollen Coffins

The wool coffin is made in Yorkshire using pure new wool, supported on a strong recycled cardboard frame. Each adult coffin is made using three fleeces. This coffin is available in Natural or Limestone.

Cardboard Picture Coffins

Our Manila Coffin is also available with a range of picture designs. Bespoke Cardboard Picture Coffins can also be provided.

Also available,

Shroud and Stretcher

Our Shrouds are made from tightly woven, unbleached bamboo yarn. Our Stretcher is woven from dark barked willow. Both are 100% biodegradable.

Flowers not included in coffin price. Environmentally Friendly floral tributes and/or coffin decoration can be arranged.
