

The Natural Legacy Direct Cremation

The advantages of a Direct (unattended) Cremation are clear. The cost is much below that of a traditional funeral and greater emphasis can be placed on what may be more appropriate ways to remember and celebrate a life. Especially for those who are not religious.

However, the disadvantages cannot be underestimated. You may not have an opportunity to say goodbye. Your loved one may be transported hundreds of miles for the cremation. You may not know who is caring for your loved one. There are environmental concerns regarding cremation. And the price, once everything is added, may not be quite as cost-effective as you initially thought.

Therefore, to provide a direct service whilst ensuring all of the care of a traditional funeral, we now offer a Direct (unattended) Cremation Service, which is then followed by an attended interment arranged at your convenience at one of our natural burial grounds.

Whilst you are unable to attend the cremation, we will inform you of the day and time, to allow you the opportunity to spend some quiet time.

The Natural Legacy Direct Cremation by The Natural Burial Company provides the following, ensuring service, environmental care, value, peace of mind, and an attended goodbye, be it Celebration of Life or Memorial Service.

- All arrangements are made by the well-trusted Natural Burial Company Team.
- Your loved one will remain in our care at a local funeral director.
- You can visit your loved one at the Chapel of Rest.
- We will conduct the unattended cremation at a local crematorium using an environmentally friendly coffin.
- A service will be arranged at the Natural Burial Ground to inter the Cremated Remains in our Natural Legacy Area*
- A Slate Memorial Plaque will be provided
- Additional trees will be planted to help negate the environmental damage of cremation.

The all-inclusive price for the above is £1,800.

*You may select the plot away from the Natural Legacy Area for an additional £150 (£200 with tree of your choice).

A Celebrant or Minister of Religion to conduct the interment can be arranged.

Arranging a Natural Legacy Direct Cremation allows you to say goodbye and have a beautiful place to visit and remember, whilst also ensuring that you are supporting nature and creating a legacy for future generations.
