All subject to the Terms and Conditions listed overleaf, and the Regulations of The Natural Burial Company

The Natural Burial Company – Terms and Conditions

Note: All sales are also subject to the Regulations of The Natural Burial Company

- All plots may be selected in person.
- Once received, we recommend that you ensure a family member, friend, or solicitor has a copy of the Burial Licence.
- Once a plot has been purchased there is no sell-back option.
- Cremated Remains Plots include space for the planting of a Tree if selected.
- It must be remembered that the burial ground, including neighbouring plots, will change within time. This may include the planting of trees (unless in specific meadow areas).
- Plots cannot be “held” without payment. If a neighbouring plot is required, this should be purchased at the time of the original plot. There can be no guarantee that a previously available plot will remain available in the future.
- The right for a plot will automatically be assigned to the next of kin at the time of death of the plot owner. Except when specific instructions have been provided. Otherwise, transfer of plot ownership will incur a charge.
- A Slate Memorial Plaque and/or a Tree may be purchased from The Natural Burial Company and fixed/planted on the plot. Details of these and all available memorials are listed on our Memorial Price List.
- Graves must remain natural and must not be personalised with markers, monuments, vases, stones, statues, fences, or any such items. These will be removed immediately by our team. The only exceptions are for the day of an interment and the 5 days following, or during the Christmas/New Year period when rules are relaxed. It must be noted, however, that any Christmas decorations are natural and appropriate for a place of dignity and respect.
- You are welcome to seed the grave and the immediate area (although not other graves) with UK native meadow flowers, or bulbs.
- You may not plant your own trees, bushes, or any other plant apart from the above. Unauthorised plants will be removed.
- You may not strim or cut the grave plot without written permission from The Natural Burial Company. We will re-seed or take other action to return any such plot to a natural state.
- It is natural for plots to on occasions “sink”. In such a situation The Natural Burial Company will rectify the situation. This may be more noticeable during winter and particularly wet spells.
- On occasions the preparation of neighbouring graves may result in soil temporarily covering the grave. In such a case the earth will be removed and the plot made good at our earliest opportunity.

Our team are passionate about caring for nature and the environment and will always endeavour to help support you to care for your family plot(s). If we are ever able to help in any way, or if you have any concerns, please don't hesitate to contact us.
